IN THE MIX

WATERFRONT WONDERS

New developments across the world are adding man-made lagoons to boost value for buyers and developers alike. From Thailand's largest artificial lagoon sprawling 18 acres at Malu Samut to a beach-inspired lagoon surrounding North Miami's ONE Park Tower by Turnberry, these community centerpieces are the future of sustainable waterfront living.

BOUTIQUE IS BOOMING

With single-family home inventories cliff diving to all-time lows, South Florida buyers are turning to boutique residential buildings to give them the security and amenities they seek. In Miami Beach alone, condo sales have skyrocketed 55% in the last year, while Downtown Fort Lauderdale has no less than 40 new developments underway.

LA DOLCE VITA

Fans of B&B Italia's contemporary Italian furnishings can now own a home personally customized by the luxury brand's famed creative director Piero Lissoni. Located in the heart of Downtown Miami, Casa Bella by B&B Italia features 312 residences with a selection of European fixtures and finishes inspired by Italian heritage.
